

NMC

Introduction

Our *Standards for student supervision and assessment* set out our expectations for the learning, support and supervision of students in the practice environment. They also set out how students are assessed for theory and practice.

Article 15(1) of the Nursing and Midwifery Order 2001 (SI 2001/1414) states that the standards for the registration of nurses and midwives shall be such as to ensure that the public are protected and that the standards are consistent with the standards of the United Kingdom. The standards shall be such as to ensure that the public are protected and that the standards are consistent with the standards of the United Kingdom.

Effective practice learning

All students are provided with safe, effective and inclusive learning experiences. Each learning environment has the governance and resources needed to deliver education and training. Students actively participate in their own education, learning from a range of people across a variety of settings.

1.0

A

- 1.1 practice learning complies with the NMC *Standards framework for nursing and midwifery education*
- 1.2 practice learning complies with specific programme standards
- 1.3 practice learning is designed to meet proficiencies and outcomes relevant to the programme
- 1.4 there are suitable systems, processes, resources and individuals in place to ensure safe and effective coordination of learning within practice learning environments

1.5 there is a nominated person for each practice setting to actively support students and address student concerns

1.6

4. :
